

On 5/28/2020 I stopped a vehicle for traveling approximately 70/55. The vehicle was paced by Investigator Jonathan Anthony. I initiated a traffic stop at Hwy 55 and Brandontown Rd. I made contact with Derik Brown who stated he was traveling with the flow of traffic and did not need a ticket. He also was driving with a green pair of work gloves. I Asked him for his Id and he stated he did not have it on him. I asked for the registration and insurance and he stated he did not have it yet. He stated he purchased the vehicle from a guy who buys and sells cars in Chattanooga. Through the course of roadside investigation, I determined the vehicle to belong to a female and had a lien on it. Derik then stated he rented the car for the weekend from a guy to put brakes and rotors on it. Derik did not remember who he got the car from but stated it was at a hotel. I asked Communication to make contact with Chattanooga and see if they can locate the owner.

While I was waiting for information Deputy Brandon Gullett deployed his K-9 partner Emi and received a positive alert. At this time Derik was asked to step out of the vehicle. Derik became loud and asked what was in the fanny pack across his chest. At that time Deputy Gullett noticed a package that appeared to be drugs and attempted to detain him. Derik pulled away and took off. He was then caught and placed into custody, with the assistance of Manchester Police Michael Wilder. Derik was found to have some crystal substance in his pocket. Total weight approximately 14 grams. Upon search of the vehicle scales were located. He was transported to the Coffee County Jail and vehicle was towed by Hullett's Service Center.
